

Cord-A-Way

10596 Noble Circle N.
Brooklyn Park, MN 55443
Tel. (763) 424-7606

Patent Pending

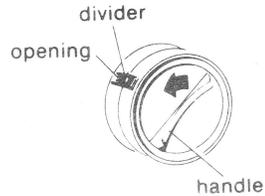

instructions

STORING CORD

Rotate halves of Cord-A-Way until openings meet, forming one single opening. Slowly turn handle counterclockwise until divider in opening disappears.

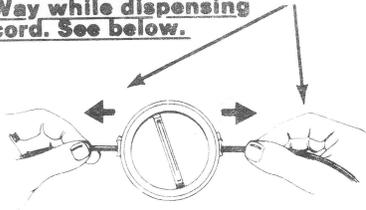

Bend cord at middle and form a small loop. Insert loop into opening (approx. 1½"). Turn handle clockwise. Allow openings to separate. Continue turning until desired length is achieved.

DISPENSING CORD

If longer length of cord is desired, pull opposite ends of cord from Cord-A-Way until desired length is obtained.

Do not hold Cord-A-Way while dispensing cord. See below.

REMOVING CORD FROM C-A-W

Pull on opposite ends of cord until it stops. Rotate halves of Cord-A-Way until openings meet forming one single opening. While pulling gently on both cords turn handle counter-clockwise until loop slips out. Cord-A-Way is now ready for another cord.

FEATURES

Built-in reel tension holds cords off floors and counter tops, for neatness and easier cleaning.

Eliminates cords hazards . . . Safer for family and pets.

CAUTION: Do not use on extension cord that is being overloaded
