

**KidCo**

## Y Spindle for stairway balusters

Contents: 1 Y Spindle, 1 nut

**NOTE:** Y Spindles are for use with most KidCo Pressure Mounted gates ONLY; Gateway® and Center Gateway® Models. They assist in the gate installation when the mounting surface has a round staircase baluster.

**THIS PRODUCT IS NOT INTENDED FOR USE WITH THE GATEWAY® TO GO.**

### To Install on Gateway Models (G10 and G11)

Use Y Spindle only on the hinge side of the gate (furthest from the handle side). No more than 2 Y Spindles per gate may be used.

### To Install on Center Gateway Models (G15 and G35)

Y Spindles may be used on either the hinge side or the handle side of the gate. However, they must be used on the same side. No more than 2 Y Spindles per gate may be used.

Follow instructions provided with the basic gate to the point of inserting spindles. Substitute Y spindle(s) for spindle(s) included with the basic gate. If spindle is too long, it may be necessary to shorten by using a bolt cutter or hacksaw. Before cutting, move lock nut all the way towards the "Y". No more than 3" should be cut off.

Proceed with instructions provided with the basic gate.

### Warning

This product is not a substitute for adult supervision. Never leave child unattended.

### Warranty

If not completely satisfied with this product, return it with proof of purchase and we will replace it free of charge.
